EYSENCK
PERSONALITY INVENTORY

#### EYSENCK PERSONALITY INVENTORY (EPI) - EXTROVERSION / INTROVERSION

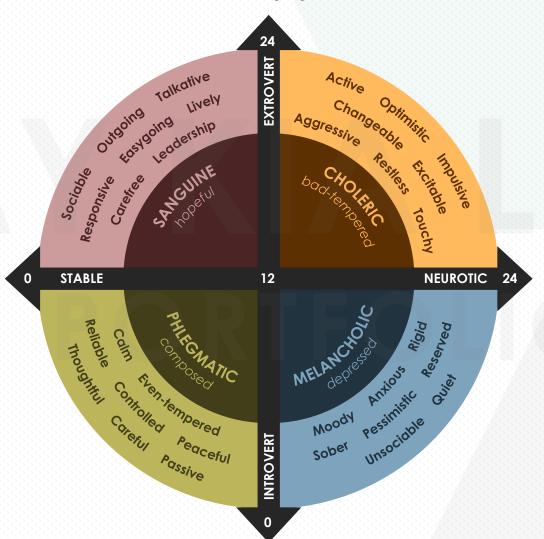

#### **ABOUT**

The Eysenck Personality Inventory (EPI) is a selfreport instrument designed to measure two central dimensions of personality, extraversion and neuroticism. This instrument is comprised of 57 yes / no items and yields total scores for extraversion and neuroticism as well as a validity score (e.g., Lie Scale). Individuals are generally classified as "high" or "low" on the two dimensions. Persons high in extraversion are seen as social, carefree, and optimistic, while low scorers are generally quiet, introspective, and reserved. Individuals classified as high in neuroticism are prone to emotional distress / instability, while those low in this dimension are generally calm and emotionally stable.

EYSENCK
PERSONALITY INVENTORY

#### EYSENCK PERSONALITY INVENTORY (EPI) - EXTROVERSION / INTROVERSION

#### **MEASUREMENT**

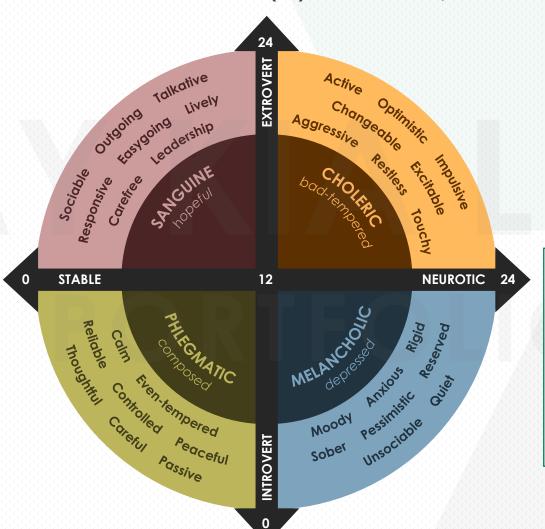

When you fill out **Eysenck Personality Inventory** (EPI) you get three scores:

- 1. The 'Lie score' is out of **9**. It measures how socially desirable you are trying to be in your answers. Those who score 5 or more on this scale are probably trying to make themselves look good and are not being totally honest in their responses.
- The 'E score' is out of 24 and measures how much of an extrovert you are.
- 3. The 'N score' is out of 24 and measures how neurotic (unstable) you are.

EYSENCK
PERSONALITY INVENTORY

#### EYSENCK PERSONALITY INVENTORY (EPI) - EXTROVERSION / INTROVERSION

#### **MEASUREMENT**

N score are plotted on a graph from which you can read your personality characteristics. The nearer the outside of the circle you are, the more marked are the personality traits.

Please note that the EPI is a very simplistic type of personality measurement scale, so if you have come out as a personality that does not match what you thought before you took the test, you are probably right and the test is probably wrong!

INVENTORY

extroversion / introversion

EYSENCK
PERSONALITY INVENTORY

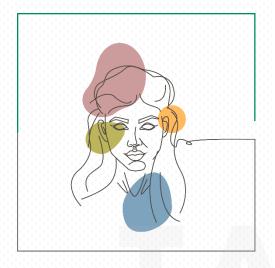

EYSENCK PERSONALITY INVENTORY (EPI) - EXTROVERSION / INTROVERSION

#### INSTRUCTIONS

Here are some questions regarding the way you behave, feel and act. After each question is a space for answering YES or NO.

	2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2	
la ada a a a a a a a a a a a a a a a a a		
	3 A A	NO
la ada a ada a a a a a a a a a a a a a a	/: I C3:	INU
	4 o 10 T T T o o o o o o o o o o o o o o o o	

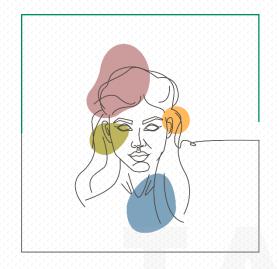

- 2 Try to decide whether **YES** or **NO** represents your usual way of acting or feeling. Then put a tick in the box under the column headed **YES** or **NO**. Work quickly, and don't spend too much time over any question, we want your first reaction, not a long drawn-out thought process. The whole questionnaire should not take more than a few minutes. Be sure not to omit any questions.
- 3 Start now, work quickly and remember to answer every question. There are no right or wrong answers, and this is not a test of intelligence or ability, but simply a measure of the way you behave.
